

**STATEMENT OF WORK****Waste Recycling (633)****Florida**

**These deliverables apply to this individual practice. For other planned practice deliverables refer to those specific Statements of Work.**

---

**Licensure**

---

Florida Statute Title XXXII, Regulation of Professions and Occupations, Chapter 471, Engineering, regulates the practice of engineering in Florida and provides the definition of engineering in Chapter 471.005(7). Technical assistance for this engineering conservation practice may be considered the practice of engineering and subject to licensure requirements of Florida Statute Chapter 471. It is the responsibility of the individual providing technical assistance to determine and verify whether this practice is subject to Florida Statute Chapter 471

**DESIGN**

---

**Deliverables**

1. Design documents that demonstrate criteria in Florida NRCS practice standard have been met and are compatible with planned and applied practices
  - a. Practice purpose(s) as identified in the conservation plan
  - b. List of required permits to be obtained by the client
  - c. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Results of applicable sampling, analyses and tests provided by the client
    - ii. Planned waste utilization
    - iii. Additional requirements applicable to manure or organic materials, non-point source pollution, soil condition, and air quality
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to implement the practice and obtain necessary permits
3. Quality Assurance Plan
4. Operation and maintenance plan
5. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
6. Design modifications during implementation as required
7. All documents signed and sealed in accordance with Florida Statute Chapter 471 or documentation from the Florida Licensing Board stating that the practice is not subject to the requirements of Chapter 471

**INSTALLATION**

---

**Deliverables**

1. Pre-application conference with client and contractor and signed form FL-ENG-40
2. Verification that client has obtained required permits
3. Staking and layout according to plans and specifications including applicable layout notes
4. Facilitate and implement required design modifications with client and original designer
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation
6. Certification that the application process and materials meets design and permit requirements

**CHECK OUT**

---

**Deliverables**

1. Check out notes as specified in the Florida Supplement, NEFH, Part 650, Chapter 1.
2. As-built documentation.
  - a. Extent and location of practice units applied
  - b. Actual materials used
3. Certification that the application meets Florida NRCS standards and specifications and is in compliance with permits
4. Progress reporting
